WHY WE'RE THE RIGHT CHOICE.

PGT Windows and Doors offers freedom from the worries of Florida living, framing all of life's little moments with beautiful effortless protection. Our windows and doors block out storms while elevating homes, tirelessly working to create spaces that are strong, comfortable, and quiet. With dedicated service and in-depth local expertise, our promise is to help seamlessly connect homeowners to what they need most: protection, comfort and the joys of brighter living.

Framing possibilities in a new light

PGT Commercial manufactures products that deliver solutions for some of the most demanding commercial and residential applications in the industry. Our windows and doors are built to withstand and protect, providing strength that is second to none.

From the day they're installed, our impact products stand up to outside elements and give you confidence in your environment, your lifestyle, and your investment.

EXPERIENCE IS EVERYTHING

With decades of proven results and a reputation built on reliability, we're the partner you can count on—project after project.

CONFIDENCE TO CREATE

Every detail matters. From robust testing and precision manufacturing processes to a relentless pursuit of quality, our products are designed to perform, so you can focus on building.

EVERY DETAIL, EVERY DAY

Our experts collaborate with you to match the right products to the right project—balancing design, performance, and budget—while delivering the service and support your business requires.

Designed to deliver

PGT Commercial meets the challenges of your biggest projects, like commercial high-end residential needs, including retail, condo, luxury high rises, multifamily, schools, hotels, resorts, healthcare, mixed use, and more. Designer friendly, impact resistant, and built to last — we lead with quality and reliability. Always.

IMPACT RESISTANT

Built to last

Engineered to withstand extreme weather conditions and provide superior protection, our impact-resistant windows and doors deliver unmatched durability.

Options made to suit your lifestyle

Proven to deliver exceptional protection against wind, impact, and water intrusion in high design pressure environments, PGT's Commercial Products also provide a modern aesthetic that elevates the design of both residential and commercial spaces, adding value to any project.

THINGS TO CONSIDER WHEN CHOOSING COMMERCIAL PRODUCTS

Building Codes & Compliance. Ensure the products meet local, state, and federal building codes, as well as industry standards for safety, accessibility, and energy efficiency.

Security. Evaluate security features such as impact resistance, reinforced frames, advanced locking systems, and options for laminated or tempered glass.

Cost & Value. Balance upfront costs with long-term value, factoring in durability, energy savings, warranty, and potential for future expansion or upgrades.

Durability & Performance. Select products engineered for heavy use and demanding environments. Look for materials and hardware that offer long-term reliability and weather resistance.

Aesthetics & Design Flexibility. Choose products that complement the building's architecture and allow for customization in size, finish, and glazing to fit your project's vision.

Warranty & Support. Choose products backed by strong warranties and responsive customer service to ensure peace of mind after installation.

Impact Storefront Window

SS3500

Specifications

- Max Width: 144" (centerline) at 48" frame height
- Max Height: 144" (frame) at 58.25" centerline width
- Frame Depth: 1.75" x 5"
- Maximum Design Pressure: +90/-120 PSF
- Florida Product Approval

Standard Features

- 9/16" Laminated, 1-3/16" Laminated Insulating
- Extruded aluminum snap on glazing beads
- Internally wet glazed

Optional

- Custom colors
- Reverse internally wet glazed with exterior sacrificial cap

Impact Storefront Window

SS3520

Specifications

- Max Width: 180" (centerline) at 48" frame height
- Max Height: 180" (frame) at 48" centerline width
- Frame Depth: 1.75" x 5"
- Maximum Design Pressure: +90/-120 PSF
- Florida Product Approval

Standard Features

- 9/16" Laminated, 1-3/16" Laminated Insulating
- Extruded aluminum snap on glazing beads
- Internally wet glazed

Optional

- Custom colors
- Anchorless Jambs available
