

AX4500 Stacking Moving Glass Walls

Designed to perfectly merge your interior and exterior spaces, the AX4500 Stacking Moving Glass Walls system is a thoroughly modern sliding patio door. Energy efficient, aesthetically pleasing, and easy to operate, the AX4500 Stacking Moving Glass Walls cover all the bases. The aluminum frame is built for long-lasting service while giving your home a jolt of curb appeal.

What you can expect

CLEAR SIGHTLINES

Featuring wide panels and expanded glass, the AX4500 Stacking Moving Glass Wall offers clean, even sightlines. Whether your home looks out onto a bustling cityscape, pristine farmland, or a suburban park, you'll have excellent vantage points to enjoy the view.

SUPERIOR ENERGY PERFORMANCE

The AX4500 boasts thermally improved aluminum, argon gas in-fill, and dual-paned Low-E glass for enhanced energy efficiency. The result is a patio door that can achieve a U-factor of 0.39.

DURABILITY AND WEATHER RESISTANCE

Constructed with high-quality materials, AX4500 Moving Glass Walls are built to withstand various weather conditions. The aluminum frames are durable and resistant to corrosion, while the advanced sealing technology helps to keep out wind, rain, and other elements, maintaining functionality and aesthetics.

Engineered to perform

- Available in two-, three-, and four-panel configurations
- Retractable screens available for three- and four-panel configurations
- Stacks neatly out of the way for convenience
- Available with water barrier and flush sill options
- A keyed lock is an option for exterior entry
- Easy to operate thanks to stainless steel ball-bearing rollers
- AX4500 Moving Glass Walls come with a Lifetime Limited Warranty

Energy efficient glass

Our dual-pane insulated glass option enhances energy efficiency in various weather conditions, helping to save on heating and cooling costs while improving home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort

GLASS PACKAGE	U-VALUE*	SHGC
Argon and HP Low-E glass	0.39-0.41	0.23

*U-factor dependent on thermal break configuration. Contact your salesman for more details
